If yes, I invite you again to have a look of my website
<http://jj.velicitat.free.fr/>
You will find my profile and all the pictures you need
to help you for your casting.
You can download them and give my website address
to your clients to help them to choose.

We are a lot of Farrang doing those casting,
but few of us a really professional.
What that means to be a professional ?
To be in time at the casting and the shooting days, to be sober,
and give something more than the client is expecting.
Many time when the clients choose me, he tell me on the set,
they chose me because of my acting game. I was, some time,
not exactly wath they was looking for,
but I was more natural and alive than the others.

So let's work together.
More casting I will do, more chance I will have to work.
It's good for you and it's good for me too !!!
But of course please sent me to casting I have a chance to have the job.
If you are not sure call me and I will tell you if I can do it or not,
let's work together as a team.

So now, let's have a look at the April's work...

The Professional News:

First I have done some post synchronisation for the movie " First Flight "
directed by khun *Thanit Jitnukul* at the kantana Studio.
I also coached the French speaking parts with the Thai actor
khun *Luang Kaj*, and the American actor *Tom Claytor* .

It was a very good experience and I think the French audience during

the Cannes Film Festival will appreciate the work
of those actors speaking French.
I wish good luck to "First Flight" for the competition.
And I invite every one to discover there website:
<http://www.firstflightmovie.com/>
Tank's Tom and have fun at Cannes during the Festival.

The second great news this month,
I had working in two Thai TV series for Channel 7.
It was the first time since I'm in Bangkok, and I was acting in Thai !!!
I'm very happy because it was one of my goals
when I arrive in Bangkok last year.
The first Series was the last episode of " Poussom Fao Sap "
on Tv Friday 20 April.
I was playing an Antique dealer who tries to buy a stolen old crown,
when the ghost Poussom come to protect the crown.
It was very funny to play and now I know how fast they work
when they shoot those Tv series.

The second one will be on TV soon for Channel 7
with khun *Pok Piyatida* and khun *Poh Nattawut*.
I don't have the name of the series yet, but the story is about a restaurant.
I was playing a customer who complain about the food he order.
But at the end everything will be fine.

And for the end, I steel have to shoot in the Thai Action Movie
"Muay Thai Chaiya" directed by *Kongkiat Konsiri* and *Thanit Jitnukul*
They take some time, and I will finish the shooting next month.
I play a Vietnam War veteran named "Jack".
He's the bad guy who is fighting against the main character
played by *Golf Akara Amattayakul* .

A special thanks this month to *Tom* and *Tida* for their help

Of course I don't know all the casting
for the movie and upcoming commercials.
So if you have some information about castings, casting directors' contacts,
or if you think some of your friends would be interested in my profile,
Send me their email address or give them my website link.
Tank's for your attention.

That's all for this month **"Enjoy the present day"**.
